

Business Accounting Measures, Inc.

"Helping you measure the heartbeat of your business"

ACCOUNTING SOFTWARE SERVICES

Knowing that your business is financially successful gives you a peace of mind. Having financial information available to make important business decisions is key to growing your business and taking it to the next level.

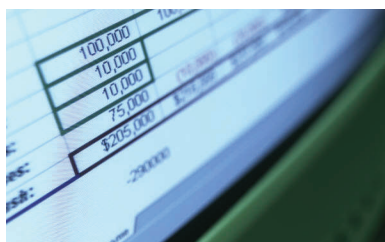

As Certified QuickBooks ProAdvisors, our staff will install and train you and your employees to use powerful accounting software that will allow you to continuously track your financial success. QuickBooks Accounting Software will allow you to produce important financial statements quickly and easily. Our staff can provide the initial setup and software support along with proper accounting procedures that will minimize your professional accounting cost. By having the financial information that these products provide, you will be able to make better business decisions for your future.

CERTIFIED QUICKBOOKS PROADVISOR

Certified QuickBooks ProAdvisors are independent accountants, bookkeepers, computer consultants and even CPA's who work with small businesses and who have completed a rigorous and comprehensive QuickBooks curriculum developed by Intuit. They understand the challenges you face and can offer guidance on everything from complex account-

ing questions and payroll interpretation to mastering advanced features of QuickBooks.

Glenda has met these requirements for 2007 and will work with you to maximize
